Moviecar Photobooth

EYE CATCHER!

With the A-Team bus paired with the movie car photobooth, you'll have a captivating eye-catcher for your event. Every visitor can have their photo taken during your event, providing your guests with a once-in-a-lifetime experience.

We'll set up the A-Team van and movie car photobooth at your event location.

The setup can be configured in various ways, taking into account factors such as:

- the venue
- your preferences
- and the available budget

YOUR DESIGN

We provide each photo with a custom backdrop, ensuring that the print-out for your guests is **always memorable**, regardless of where the photos are taken.

There's ample space for you or your client to incorporate **personalized content**, such as:

- Logos (for branding purposes)
- QR codes (to direct people to your landing page)
- Event name (for recognition)
- Date
- Mission statement
- Discount codes (a fantastic marketing tool!)
- And more.

This customization allows you to tailor the experience to your specific branding and promotional needs.

CONSIDER THE FOLLOWING

For many people, seeing and being able to touch this magnificent movie car in person is a dream that has spanned many years. People from the GenX generation have been waiting for this moment for up to 40 years! The rumble of the V8 engine quickens the heartbeat of many a petrolhead, prompting smartphones to emerge from pockets. Even before your event begins, it's already a success.

Lifetime Exposure!

A photo that they take away will never be discarded. This ensures that your organization remains etched in the visitor's memory for a lifetime.

Consider what this could mean for your booth at a trade show or activation!

This is the **ULTIMATE MARKETING TOOL** for your organization or that of your client.

MAILSHARE OPTIE – GO VIRAL!

Print + Mailshare

Every photo is instantly printed on-site and handed out. Guests can also receive their photo via email! Additionally, your visitors can immediately share their A-Team Experience photo on one or multiple social media platforms. The body text can receive an extra touch as well. We can also add an extra flair to the body text.

This additional feature comes at no extra cost to you!

This immediately opens the door to **#hashtag marketing** for you. Consider what this could mean for your trade show booth or activation!

As you can see, with a movie car, there are many more possibilities than just taking a photo.

TOTAL CARE

As an organization, you have no worries about us and our setup. We place the car and set up the movie car photobooth. Everything is prepared and ready for the guests. Cables are neatly taped, and we prioritize the safety of your guests. We ensure the best lighting and are entirely at your service for your event.

Maximum attention and fun for everyone!

Our always friendly staff will give each guest maximum attention. We are a unique piece of extra experience and entertainment that people will talk about for a long time.

With enthusiasm, the same question is answered 100 times over. *"Is it the real one?"* or *"What kind of engine does it have?"*. We explain to hundreds of guests because we enjoy it just as much!

And when your event is over, we clean up everything neatly.
